

IVAN MAKSYMETZ MEMORIAL UPGRADE

Perviatychi, Ukraine

Family members who have visited the ancestral village of Perviatychi have noted that the headstone of Ivan Maksymetz, our great grandfather, due to age has badly deteriorated and is in need of replacement.

The committee has decided that this would be a worthy project for us to undertake. We invite contributions from all descendants so that we can proceed with this memorial. We are suggesting a donation of **\$25.00**, but all contributions would be welcome.

Please send it with your registration, payable to **"Maksymetz Memorial Fund"**. Those who are unable to attend are encouraged to participate as well.
